

Digital Workplace Solutions

A complete platform to boost productivity and engagement of a distributed workforce.

With the accelerating shift to a distributed workforce and the drive to enhance employee engagement, are you experiencing the need to focus more on delivering an employee user experience that is personalized, content-rich, and integrated with your critical apps and data?

Personalized

Deliver employee experiences around role, geography, and individual preferences using personas and automated content management capabilities.

Integrated

Link predictive analytics, applications, and content from corporate communications into a compelling and relevant experience using simple API integration with common employee apps, such as ServiceNow, SAP, Concur, and Salesforce.

Responsive

Build once and deploy role-specific content to employees via mobile, tablet, kiosk, and desktops. Easy to administer management and visual design to extend brand standards.

A Complete Digital Workplace Solution

Our portfolio of offerings delivers a complete digital workplace platform.

Employee Experience

Digital Workplace Integration

Rapid and Agile Delivery

We combine the Akumina Employee Experience and Office 365 platforms with pre-built design templates, an extensible SDK, and APIs to streamline the delivery of a solution that is customized to the needs of every employee.

Easy Maintenance and Operation

We offer automated content management, hundreds of out-of-the box components, cloud-enabled services, integration with Active Directory, and app-based administrative management for easy operation, maintenance, and management.

Comprehensive Analytics and Process Automation

Our digital workplace solution leverages robotic process automation and the delivery of employee-customized predictive data dashboards to boost ROI, productivity, and organizational efficiency.
