

# Support Business Scalability and Deliver Stability with Innovating Software

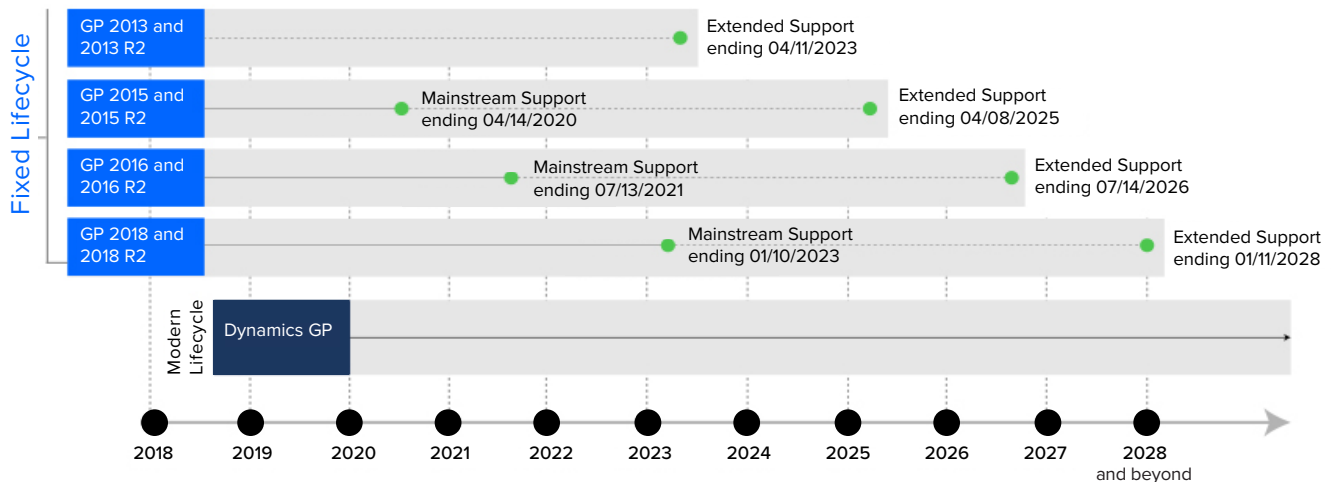

Microsoft Dynamics Great Plains (GP)

**Integrate your business app solutions under one unified platform that will automate and simplify your financial management, project management, payroll management, and supply chain and distribution tasks. With System Soft Technologies’ expertise, we can customize Dynamics GP to your specific business and industry needs.**

Systems Soft offers clients a long-term partner strategy. This will allow us to help your organization address important upgrades, features and support. We ensure your software is updated and on-premises with the guidance of our experts and Dynamics GP product roadmap.

## Dynamics GP versions governed by Fixed and Modern Lifecycle

Microsoft Dynamics GP goes beyond a typical ERP solution or accounting software. It provides a unique combination of tools, which are embedded across your entire business process. Some of the results you can expect after implementing such efficient technology is an increase in margins, improvement with cash flow and ultimately, elevation of your business productivity.

# Our Microsoft Dynamics GP Solution Center of Excellence Offers

## Upgrade Management

Allows you to better understand and manage the major technical risks and challenges within an upgrade project and to assure the upgrade does not interfere with your everyday business productivity.

## Optimization and Customization

Eliminate inefficient practices and decrease cost by streamlining processes, creating custom reusable assets and reducing redundancy.

## Migration to the Cloud

Adopt new business models faster with flexible deployment, reliability, security and an adaptable solution that grows with your organization.

## Utilization Monitoring

A critical evaluation of your software's health to reduce cyber security threats, loss of data or a malfunction of connected applications.

## Training and Assessment

Ensure your team is set up for success by assessing the gaps within your software and your organization's knowledge of the tools it uses for everyday work activities. Role-based training focuses on your users and the tools they use to stay productive throughout their workday lifecycle.

# Microsoft Dynamics GP Benefits

## Agility

Gain simplicity, agility and value. Provide your organization with the flexibility to expand or contract as business conditions change.

## Collaboration

Increase scalability, improve customer engagement procedures, strengthen collaborative sales and team efforts.

## Communication

Orchestrate personalized journeys across all touchpoints to strengthen relationships and earn loyalty.
