## Situation

In early 2021, System Soft Technologies secured an IT staffing agreement with a Fortune 500 organization. The client needed support for numerous open IT positions and was having a difficult time filling those roles.

What began as a simple request quickly turned into a large requirement; more than a dozen IT positions required immediate support, with every type of IT role needing to be filled. Finding candidates with enough experience to fit the guidelines seemed nearly impossible.

## Strategy

System Soft researched the challenges with the client, finding out what went right with the Fortune 500's search and where a better approach could have been used. It was determined that the client, one of the best in their field of service, was not utilizing the best tactics to attract the right candidates.

## Outcome

The Fortune 500 organization collaborated with System Soft's Talent Acquisition team. Together, they developed a strategy to promote the client's services to an untapped candidate base. As a result, System Soft has delivered and fulfilled every open IT requirement.

Since, and now on an exclusive basis, System Soft has continued to provide services to this client and has become an integral part of the Fortune 500's hiring process, delivering top candidates performing specific IT services.

## Conclusion

By providing unparalleled access to a global talent network, System Soft's strategic IT staffing solutions simplify the recruiting process for any organization. Clients quickly benefit from System Soft's comprehensive and rich set of internal subject matter experts and quality processes that enhance the efficiency of the talent management process, while minimizing operational costs. System Soft's talent solutions offer a vast talent pool across many geographies, enabling clients to position the right talent in various types of engagement models, including on-site, near-shore, offshore, hybrid and flex models.

Organizations of all sizes can benefit from System Soft's collaborative, customizable talent solutions that combine technical skills with the soft skills that are vital to their success. **Learn more about System Soft's Talent Solutions.**
