

FOR IMMEDIATE RELEASE

LinkedIn Live Event: You Have Your Secure Score, Now What?

Interactive, Q&A LinkedIn Live event for business and IT leaders; learn the best way to understand Secure Score and how to improve your organization's score, while maximizing its Microsoft license investment

TAMPA, Florida—February 24, 2022—System Soft Technologies, a leader in enterprise IT services, solutions and products, today announced it is hosting, along with [cyber security partner BlueVoyant](#), a LinkedIn Live streaming event at 2 p.m. ET on Thursday, March 3, 2022. The episode—"Ask an Expert: **You Have Your Secure Score, Now What?**"—will engage business and IT leaders to learn the best way to understand their Secure Score and how they can improve it, while maximizing their organization's Microsoft license investment.

This episode follows the LinkedIn Live event on February 17, 2022: [Secure Score for Microsoft 365 + Defender, Why Should I Care?](#).

Cloud Security experts [Mark Imhoff](#), [John Nykaza](#) and [Craig Wilson](#)—all of System Soft, and [BlueVoyant's Micah Heaton](#) will share how organizations are tightening their security through Secure Score, and improving their overall security posture.

The panel will also discuss BlueVoyant's use of Azure Sentinel Cyber Risk Management and Digital Risk Protection—sophisticated and comprehensive data collections and analytics solutions—to deliver scalable, end-to-end, external cyber security protection.

[Register](#) to attend and learn from these Cloud Security experts how to:

- Gain a deeper understanding of your Secure Score
- Improve your Secure Score through recommended actions
- Maximize your organization's Microsoft license investment
