Situation

In November 2020, System Soft Technologies established a relationship with a startup led by several key technology individuals in the Dallas/Ft. Worth area. This startup required experienced IT executives, along with a mix of IT developers to help build and support their teams.

Strategy

Full-time positions for IT consultants can be procured through System Soft's Direct Hire services, which is offered for all clients through the IT Consulting Support team.

System Soft quickly performed a deep understanding about the types of IT tasks involved and the proposed company culture that the existing executives wanted to carry forward for all future hires.

Collaborating with this new organization and using new policies just put into place was a challenge for System Soft. However, System Soft excelled by providing the type of individuals who exceeded expectations.

Outcome

System Soft quickly became the startup's sole source for all Direct Hire employment. During 2021, System Soft has sourced and provided the client with 12 direct-hire IT positions through this tested and proprietary format. This has allowed the client to accelerate its forecast and experience unprecedented growth.

Conclusion

By providing unparalleled access to a global Soft's strategic IT staffing solutions simplify for any organization. Clients quickly benefit from System Soft's comprehensive and rich set of internal experts and quality processes that enhance the talent management process, while minimizing operational costs. System Soft's talent solutions offer a vast talent pool across many geographies, to position the right talent in various types of engagement models, including onsite, shore, offshore, hybrid and flex models.

Organizations of all sizes can benefit from System Soft's collaborative, customizable talent solutions that combine technical skills with the soft skills that are vital to their success. **Learn more about System Soft's Talent Solutions.**
