

## FOR IMMEDIATE RELEASE

---

### **Webinar: Deep Dive into Secure Score for Microsoft 365 and Cloud Advisor**

*System Soft Technologies, BlueVoyant present and give a live demo about components of Secure Score, with recommendations to help business and IT leaders defend against cyber security threats*

**TAMPA, Florida—March 8, 2022—**System Soft Technologies, a leader in enterprise IT services, solutions and products, today announced it is hosting, along with [cyber security partner BlueVoyant](#), a live webinar at 2 p.m. ET on Thursday, March 17, 2022. **Deep Dive into Secure Score for Microsoft 365 and Cloud Advisor** will engage business and IT leaders to thoroughly learn the components of Secure Score, including recommendations and instructions to help defend their organizations from cyber security threats like ransomware.

This live webinar follows two previous LinkedIn Live events on February 17, 2022, and March 3, 2022, which also focused on how to use Secure Score, so organizations can boost their security posture, without rewriting security policies. To view part one and two of the three-part series, [click here](#).

Cloud Security experts [Mark Imhoff](#), [John Nykaza](#) and [Craig Wilson](#)—all of System Soft, and [BlueVoyant's Micah Heaton](#) will discuss and share a live demo about how organizations can feel more secure about their organizations' cloud environment, have a stronger sense of security about Microsoft 365 and fully understand Secure Score.

Key learnings from this webinar include understanding:

- Your organization's current security situation
- The steps you must take to efficiently enhance your organization's security posture
- How to use the Microsoft security tools you already paid for
- Azure Security portal and corresponding components to Secure Score

[Register](#) to join the webinar and live demo to learn from a real-world use case how to unlock the full value of your organization's Microsoft investment and best use Secure Score.
