

FOR IMMEDIATE RELEASE

SYSTEM SOFT TECHNOLOGIES SELECTED BY TIPS AS APPROVED IT CONSULTING AND STAFFING VENDOR

The Partnership, as part of TIPS Interlocal Purchasing System, delivers painless IT consulting and staffing access for nonprofits and governments with end users across the United States

TAMPA, FL-December 17, 2023 - [System Soft Technologies](#), a leading enterprise IT solutions and services provider, has been selected by TIPS (Interlocal Purchasing System) as an approved IT consulting and staffing vendor. This partnership, operating within the TIPS Interlocal Purchasing System, aims to streamline the IT consulting and staffing process for nonprofits and government organizations across the United States.

TIPS, initially established in 2002 as a regional cooperative of the Region 8 Education Service Center, has evolved into a government procurement service dedicated to enhancing the efficiency of the governmental procurement process. This collaboration allows nonprofit organizations, cities, and local governments throughout the U.S. to access System Soft's IT consulting and staffing services directly through TIPS, categorized under [Temporary Staffing, Direct-Hire, and Other Employer Services](#).

Brian Pugh, Vice President of IT Consulting and Staffing Services at System Soft, expressed enthusiasm about the partnership, stating, "We're excited about this partnership with TIPS to provide IT consulting and staffing services for eligible members in Texas and across the country. We consider our purchasing partnership with TIPS to be a vital value-add, so entities can experience an uncomplicated process to start, fund, source, manage, and successfully complete IT projects."

TIPS cooperative members will benefit from this collaboration in several ways, including:
Eliminating the need for the RFP process for IT resources, as System Soft has undergone thorough vetting by TIPS, ensuring compliance with reference checks, experience, insurance, and other prerequisites.

- Enjoying immediate cost savings through established and pre-approved rates.
- Selecting precise IT resources for their projects.
- Opting for short- or long-term staffing contracts.
- Experiencing a streamlined start-up process, with System Soft handling all aspects to initiate IT projects.

With approximately 11,000 members utilizing this Cooperative Purchasing Agreement, System Soft underwent an extensive review and background process to become a vendor under the TIPS RFP 230703 Staffing Services. This allows them to operate under the TIPS agreement, assisting state agencies, educational institutions, universities, school districts, and other members in acquiring contractors or direct hires (Permanent Placements) for IT-related tasks, such as software and web development, Systems Administration, Network Administration, and more.
